

During the employee life cycle, HR documents are often required to support the employment relationship and HR processes. It's essential to keep HR documents as a historical record of your employees when required for several reasons such as legal compliance, potential disputes and, of course, good practice.

Employers and managers can feel overwhelmed when it comes to HR documents, especially if they don't have the knowledge, experience or guidance on how to manage it. Naturally, no one wants to make an error unwittingly, especially if it could have potentially costly consequences for the company.

So, to support you in managing your HR responsibilities around written HR documentation, we have put together this guide to help you to use HR documents well. We will be discussing which HR documents you are legally required to issue and keep and how you should store these in relation to duration, security and confidentiality.
